

REGENXBIO to Participate in Global Healthcare Conferences

September 07, 2016 04:01 PM EDT

ROCKVILLE, Md., Sept. 07, 2016 (GLOBE NEWSWIRE) -- REGENXBIO Inc. (Nasdaq:RGNX), a leading biotechnology company focused on the development, commercialization and licensing of recombinant adeno-associated virus (AAV) gene therapy based on its proprietary NAV® Technology Platform, today announced that it will participate in the Morgan Stanley Global Healthcare Conference on Tuesday, September 13, 2016 in New York.

A live webcast of REGENXBIO's presentation is scheduled to begin at 12:55 p.m. ET and will feature a fireside chat with Kenneth T. Mills, President and Chief Executive Officer. The live webcast can be accessed in the Investors section of REGENXBIO's website at www.regenxbio.com. An archived replay of the webcast will be available on the same website for approximately 30 days following the presentation.

REGENXBIO representatives will also attend the Bank of America Merrill Lynch Global Healthcare Conference on Friday, September 16, 2016 in London to meet one-on-one with investors, analysts and other potential corporate partners.

About REGENXBIO

REGENXBIO is a leading biotechnology company focused on the development, commercialization and licensing of recombinant adeno-associated virus (AAV) gene therapy. REGENXBIO's NAV® Technology Platform, a proprietary AAV gene delivery platform, consists of exclusive rights to more than 100 novel AAV vectors, including AAV7, AAV8, AAV9 and AAVrh10. REGENXBIO's mission is to transform the lives of patients suffering from severe diseases with significant unmet medical need by developing and commercializing *in vivo* gene therapy products based on REGENXBIO's NAV Technology Platform. REGENXBIO seeks to accomplish this mission through a combination of internal development efforts and third-party NAV Technology Platform licensees. As of June 30, 2016, REGENXBIO's NAV Technology Platform was being applied in the development of 29 product candidates for a variety of diseases, including five internally developed candidates and 24 partnered candidates developed by REGENXBIO's licensees.
